

Beaver Lake Watershed Partnership

Meeting Agenda • Monday, March 27, 2006

Marion Gerrish Community Center • 4:00-7:00 PM

A light supper of sandwiches, desserts, and beverages will be provided

- 4:00 **Welcome and introductions**
Update Partnership on progress to date
- Website at www.blwp.net
 - Identify Auburn and Chester Core Group members
 - Review progress to date against project scope and timeline*
 - January 30 meeting action items, establish due dates, and designate Partners to complete tasks
- Outcome: participants are current with the progress to date and the project expectations and an Auburn representative is identified to participate in Core Group meetings*
- 4:15 **Review synthesis of January 30 meeting brainstorming session and identify gaps and review sample watershed management plan table of contents***
Outcome: Partners are up-to-date on current draft of brainstorming session and have provided input on the sample table of contents
- 4:30 **Review list and map of waterbodies and other watershed resources and features***
Outcome: Partners are better acquainted with watershed and resource features
- 4:45 **Establish six breakout groups to refine sections of the synthesis and report to general session at 5:45**
(Participants will be provided with detailed instruction for the breakout groups and can get food during this session and eat while they work)*
- Water quantity – Mark Wamser
 - Water quality – Jo Columbus
 - Biological /habitat data – Steve Landry
 - Open space, land use, growth – George Sioras
 - Recreation – Rob Tompkins and Ed Riemitis
 - Policy, outreach, and education – Lisa Lavalley
- Outcome: each resource section of the plan is refined with specific information added that the natresource communications team will use to develop the next draft of goals, objectives, and supporting activities.*
Outcome: full bellies that feed creative and energetic minds—and time to meet and speak with your fellow Partners
- 5:45 **Breakout group leaders report to the full Partnership with summary of refinements**
Outcome: refined sections provide the Core Group and consultant team with the input to draft an annotated watershed management plan outline/ table of contents
- 6:35 **Review this meeting's action items, assignments, and due dates**
Outcome: draft list of action items identifying assignments including who will complete each task and by what date
- 6:40 **Review this meeting's action items, schedule next Partnership meeting: suggested dates in May, complete evaluation forms, and conduct any other business**
- 7:00 **Adjourn**
